

Please do not make any changes to the New Jersey "Do Not Call" law. I registered for the national "Do Not Call" list and did not see a drop in unsolicited calls. Since I am a part of the NJ list, I have seen almost 100% stoppage in unsolicited calls. I have to say I really enjoy the peace and quiet and the uninterrupted time that I am experiencing. Please don't revise the law and allow me to continue to enjoy the privacy of my home. I truly enjoy the phone not ringing during breakfast, lunch, dinner and while watching my favorite show .
